Utilization of ETVO schedule

The ETVO Monthly Schedule has been designed to provide Ontario schools with a daily listing of all ETVO programs. Last-minute changes in programming and special features can be brought to the attention of teachers. It is important, then, to check the schedules in the Teachers' Guides against this up-to-date schedule.

The ETVO Monthly Schedule is organized in the following way:

1. Programs are listed by school divisions (e.g., Primary, Junior, etc.)
2. The series title, Teachers' Guide number, program number and individual program titles are given (e.g., BIOLOGY (S19a): 1. What is Biology?)
3. The duration of each program is listed (e.g., 20 min.)
4. TV stations are indicated by call letters, channel number and location (e.g., CKLW [9] Windsor). For detailed channel identification, see page 19.

For detailed description of individual series and programs, and for pre-viewing and post-viewing suggestions related to the programs, teachers will find the Teachers' Guides useful. These guides should be ordered through your school principal.

Cahier de l'horaire de la Télévo

Le cahier mensuel de la Télévo vous offre l'horaire précis de la programmation quotidienne des émissions diffusées et en français et en anglais par la Télévo.

Ce cahier mensuel permet d'apporter des changements de la dernière heure et d'intégrer à la programmation certaines émissions spéciales.

Il est donc indispensable de confronter l'horaire imprimé dans le guide du maître avec cet horaire à jour.

Voici comment est conçu l'horaire mensuel de la Télévo:

1. Les émissions en français pour les francophones, sont énumérées sous le titre "FRANCAIS" à la suite des émissions en anglais.
2. On y trouve le titre de la série de même que le titre, le numéro du guide du maître, le numéro de la durée de chaque émission (e.g., Les sciences (F5): 1. Les animaux).
3. Les postes sont indiqués par les lettres d'identité et le nom de la ville (e.g. CKLW (9) Windsor). Voir page 19.

Les guides du maître, que seul peut commander le directeur de l'école, contiennent en plus d'une documentation complète pour chacune des séries, des suggestions pratiques d'utilisation en salle de classe.

ATTENTION

For identification of Ontario television channels, see page 19.

A NOTER

Voir en page 19 pour l'identification des postes.

Spotlight on a series

Adventures in Mathematics - Part 2

5 programs, 10 minutes each.

The study of mathematics can be one of the most rewarding aspects of a student's career. The aim of this series, "Adventures In Mathematics, Part 2", is to introduce students to some of the startling and exciting applications of pure mathematics, in fields not normally associated with the subject.

The programs provide an introduction to the relationship between mathematics and five of these areas: nature, art, geography, economics and music. The individual topics are briefly developed and are designed to motivate students in the Intermediate Division to appreciate the role of mathematics in real life. The programs use animation and real-life situations to involve the students in the concepts presented.

THE FIBONACCI SEQUENCE

This program shows how many creations of nature and man seem to be related to a sequence of numbers first discovered by, and named after, the Italian mathematician, Leonardo Fibonacci (c.1170-1230). The Fibonacci pattern was first related to a problem concerning the reproduction of rabbits, but it has interesting applications to such natural phenomena as the branching of trees, the formation of scales on pine cones and the reflection of light. An attempt is made to explain these relationships by considering the growth curve.

THE DIVINE PROPORTION

The mysterious, irrational number PHI (Φ) is introduced and related to

the "divine proportion" and the "golden rectangle". Many interesting examples of the use of the golden section, in art and architecture, are presented. These include works by Botticelli, Da Vinci, Dürer, and Dali. The program also presents the equiangular spiral and the star pentagram, and it illustrates these with examples from nature and works of art.

MATHEMATICS IN MAP-MAKING

Maps have been used, and are still used, for many purposes: to represent physical features, to represent population distributions, and to navigate ships, planes, and space craft. This program analyzes the old problem, "How can the lines of latitude and longitude be transferred from a spherical globe to flat paper?". It indicates how this problem is dealt with by using

perspective projection. Three types of projection are discussed: stereographic, cylindrical, and conical.

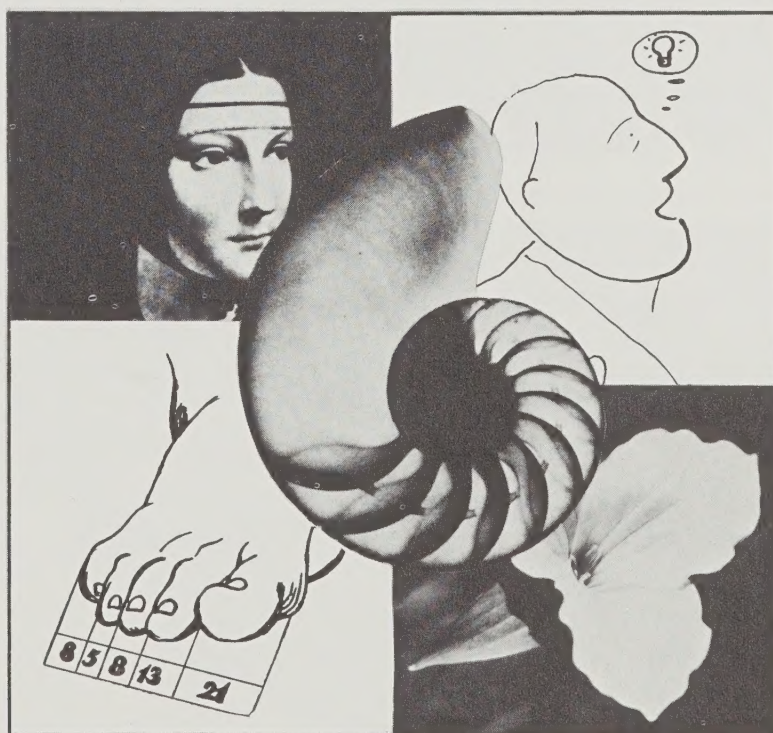

MATHEMATICS IN DECISION-MAKING

Game Theory is a fascinating and important part of our life. It can be used whenever we have a situation involving two or more "players" (individuals, companies, or countries). This program shows an application of Game Theory to a hypothetical business situation, in order to make it relevant to a real-life situation.

MATHEMATICS IN MUSIC

This program examines the unique relationship between mathematics and music. It traces the development of this relationship, beginning with Pythagoras and his examination of vibrating strings. The mathematical structure of music is emphasized by considering the concepts of pitch, melody and rhythm.

More detailed information, as well as a number of supplementary activities, may be found in the Teachers' Guide for this series (I19b). The Guide contains diagrams, maps, pictures and games that can be used in conjunction with these programs.

February Preview

The following series begin during the month of February. Please check this Monthly Schedule for the exact air dates.

I13 GEOGRAPHY – DESCRIPTION AND PRESCRIPTION

These three programs show how the geographer makes use of a variety of tools and integrates the findings of specialists, as he tackles some of the problems created by our rapidly changing world.

S10 SOCIOLOGY – THE GROUP AND THE INDIVIDUAL

These three programs explore the dynamics of group formation and the ability of the individual to relate meaningfully to others. Program one, "The Last Bus",

shows the group as a social unit and how it reacts in the face of a crisis.

S13 SIR ARTHUR CURRIE LIBEL TRIAL

This program examines the libel trial of Sir Arthur Currie and its implications as they relate to World War I, the conduct of the military, Canadian nationalism, and the process of historical inquiry.

I19b ADVENTURES IN MATHEMATICS – PART 2

This series uses real-life situations and animation to introduce students to five different areas that relate to the field of mathematics: nature, art, geography, economics, and music. See "Spotlight on a Series", page 3.

Lieut.-General Sir A. Currie, Commanding Canadian Forces. July, 1917 (S13)

Commune living is examined in "The Group and the Individual" (S10)

Questions

Q. Does ETVO offer any financial aid or technical information for schools wanting to install television systems?

A. The Department of Education pays grants towards the purchase and the installation of Master Antenna Television (MATV) Distribution Systems.

These grants are available to encourage the development and utilization of educational television in Ontario. They make it possible to receive and distribute an optimum picture to each teaching area.

Technical advice on educational television facilities and information on how to obtain these grants is available from your regional ETVO Program Consultant or from:

Mr. A.G. Pilcher
Technical Advisor
Educational Television Branch
Ontario Department of
Education
1670 Bayview Avenue
Toronto 352, Ontario.

Phone (416) 365-1883

ATTENTION RUSSIAN TEACHERS

Would you like to obtain a full script of the Russian program in the Moderns series (S2b)? Materials to prepare for this March 20 broadcast are given, as well as detailed follow-up suggestions.

Please contact:

Mr. G. Barkley
Education Supervisor, Moderns
ETVO
1670 Bayview Avenue
Toronto 352
Phone (416) 365-1875

Program 5

Family Life and Sex Education

There is at present a great deal of confusion in the minds of people regarding the true nature of sex education in the schools. Whereas *sex instruction* involves the giving of information about sex, about anatomy and physiology, *sex education* imparts a value system, a way of living one's sexuality. Family Life involves the whole spectrum of inter-personal relationships between, for instance, parents and their children, between brothers and sisters, young men and young women, boys and girls and between members of the community.

Another distinction needs to be made between sex and sexuality. Sex is something we have when we are born. It is evidenced through our genital organs, whereas sexuality is something we acquire. Sexuality is not acquired at puberty, rather it is imparted to a child throughout his early contacts with other people. It begins when a mother takes her child into her arms and imparts the concept of femaleness, or when a father takes his baby into his arms with his rougher hands, and often in a harsher,

deeper voice begins to impart to his child a concept of maleness. Even parents who do not want any type of sex education at all; are giving it continuously in the first years of the life of a human being.

Father Leo Lafrenière,
Director of the Family
Life and Sex Education
program in the Lake-
head District Separate
Schools.

This telecast begins with some general comments about sex education by Father Lafrenière. This is followed by a brief survey of the on-going programs in a variety of classrooms representing all levels of Elementary and Secondary Schools from Kindergarten through Grade Twelve.

The Family Life and Sex Education program in the Lakehead Separate Schools is unique in a number of ways. It has a full-time director, Father Lafrenière, who has done considerable post-graduate work and has received his degree at Lou-

vain University in Brussels. The program was not introduced as an experimental course; it was brought into all of the schools at every level at once when certain "conditions" were reached. A very thorough, comprehensive "parent-conditioning" program was carried out through local lectures, telecasts and newspaper articles before anything was done in the schools. Some unrehearsed, on-the-street interviews reveal the success of this effort.

Teachers who were going to participate had to be willing to work in this area and be competent in the program before they could introduce it in their classrooms. This was achieved through an intensive six-week summer course for credit, in co-operation with Lakehead University and the University of Ottawa. The Board also made provision for its teachers to attend a two-day seminar session, during school hours, each term.

This telecast examines one such session in operation. The purpose of this session is to condition the teachers to be able to approach the subject freely and without embarrassment with their classes. It is Father Lafrenière's firm belief that the classroom teacher is the person who has established a close rapport with the children, and the teacher is the logical person to discuss and to answer the pupils' questions because of their confidence in him.

Although the telecast shows several classes involved in a more formal type of presentation, much of the work is done as problems or questions arise incidentally while other subjects are being taught.

This telecast attempts to show the program as it is: the activities are part of the normal, everyday program of the various schools.

Creative talent

Professional Development

10 programs, 30 minutes each

This series consists of productions made by students which have been submitted to the province-wide ETVO Student Production Competition. The last of the competitions was held in Regions 6, 7, 9 and 10 in early November and the winning entries were chosen by student viewing committees.

Program 6 consists of three student productions from Region 7: "Then Came Sunday", "Euthanasia", and "One Fine Day". "Then Came Sunday" was the class project of Grade 4S11A at Weston Collegiate Institute. This film deals with different aspects of the activities of young people and attempts to show their concepts of freedom, ideas and realities in today's world.

"Euthanasia" is the story of a Martian's visit to Earth. The Martian becomes so saddened by the sight of the problems on Earth, such as wars, starvation and pollution, that he eventually destroys Earth in a fit of mercy.

Although the third production, "One Fine Day", is only one minute and fifty-five seconds long, it ranks as one of the most amusing interpretations of the boy-meets-girl situations. It is an experimental film,

using the live animation technique.

Program 6

Region 7

Winning Entry — "Then Came Sunday"

Students — Grade 4S11A
Staff Advisor — Mr. John Cole
School — Weston Collegiate Institute, Borough of York Board of Education

Runners-up — "Euthanasia"

Students — Steven Greenblatt, Bob Wengle

Staff Advisor — Mr. W. Swartz

School — Cedarvale Public School, Borough of York Board of Education

— "One Fine Day"

Students — Greg Antonacci, Dale Desllets, Dave O'Gorman, Rick Grunwald, Dubber Howitt

Staff Advisor — Mr. L. Finke

School — Michael Power High School, Toronto

Channel Identification

CBC and Affiliates

The CBC Ontario Network includes the following TV stations:

BARRIE	CKVR-TV	Channel 3
KINGSTON	CKWS-TV	Channel 11
LONDON	CFPL-TV	Channel 10
NORTH BAY	CFCH-TV	Channel 10
PEMBROKE	CHOV-TV	Channel 5
PETERBOROUGH	CHEX-TV	Channel 12
PORT ARTHUR	CKPR-TV	Channel 2
SAULT STE. MARIE	CJIC-TV	Channel 2
SUDBURY	CKSO-TV	Channel 5
TIMMINS	CFCL-TV	Channel 6
WINGHAM	CKNX-TV	Channel 8

Other CBC stations include CBLT (Channel 6, TORONTO), CBOT (Channel 4, OTTAWA) and CKLW (Channel 9, WINDSOR). However these stations are not always carried on the CBC Ontario Network at the times listed for the CBC. Therefore, the ETVO Monthly Schedule lists the times for these stations separately. The times for broadcasts on the independent stations CHCH-TV (Channel 11, HAMILTON) and CJOH-TV (Channel 13, OTTAWA) are also listed separately in the schedule. The broadcasting schedule for CJSS-TV (Channel 8, CORNWALL) is the same as that of CJOH-TV (Channel 13, OTTAWA).

Identification des postes

Le réseau français de radio canada comprend les postes suivants:

OTTAWA	CBOFT	Canal 9
ELLIOT LAKE	CBFST-3	Canal 12
HAMILTON	CHCH	Canal 11
HEARST	CBFOT-2	Canal 7
KAPUSKASING	CBFOT-1	Canal 12
OTTAWA	CJOH	Canal 13
ROUYN-NORANDA	CKRN-TV	Canal 4
STURGEON FALLS	CBFST	Canal 7
SUDBURY	CBFST-1	Canal 13
TIMISKAMING	CBFST-2	Canal 12
TIMMINS	CBFOT	Canal 9

Les heures de diffusion pour ces postes sont les mêmes qu'énumérées pour CBOFT (canal 9, Ottawa), avec l'exception de CHCH-TV (canal 11, Hamilton), CJOH (canal 13, Ottawa), CKLW (canal 9, Windsor) et CKRN-TV (canal 4, Rouyn). On retrouve chacun séparément dans l'horaire mensuel de la TÉVÉO.
